WELCOME ABOARD

Classified as a Strategic Site of Importance for the Irish State and backed by best-in-class industry connectivity, Rack Harbour offers advantages difficult to cost-effectively achieve in-house:

Security

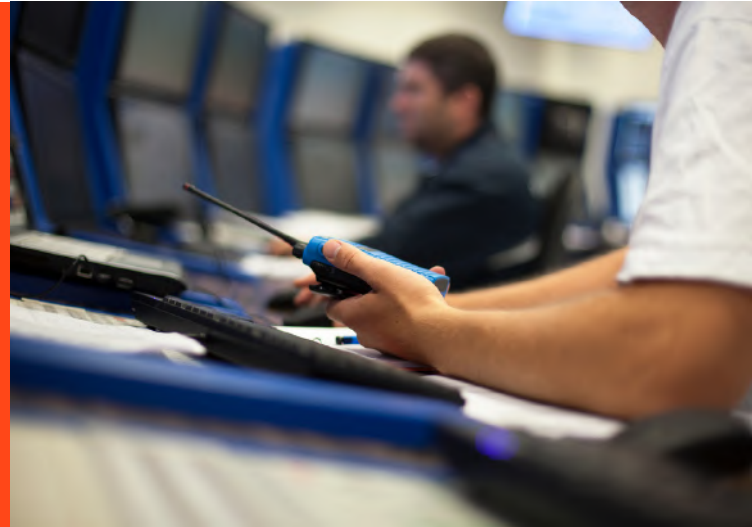

Enclosed by 2.5 metres of patrolled double fencing, guarded gates and secure clearance facility access.

Reliability

Backup power generators, multiple network connections and physical security all work to keep you online.

Support

We offer 24/7/365 on-site support, with Immediate "remote hands" problem solving as issues arise.

CO-LOCATION WITH A DIFFERENCE

UNIQUE ADVANTAGES

Located within the National Space Centre at Elfordstown Earthstation, Rack Harbour allows you to house the hardware and equipment you own in a secure location, safeguarding your sensitive data.

Approved by the Department of Defence, our facility boasts excellent security, exceptional connectivity, high scalability and optimal availability.

Keep your data safe from theft, fire and power outages.

Downsize or reclaim office space you would otherwise use for server racks.

Take control of your IT budget with controlled, predictable monthly costs.

RACKSPACE PACKAGES

DEDICATED OR SHARED RACK SPACES

Our rackspace offering and configuration can be tailored to your data centre requirements.

Pricing is based on our standard rate card.
